

Global Fund To Do List:

The goal for the Prison Issues meeting will be to determine a working group to work through the To Do list and present all options to the Director for final approval.

- Determine initial allocations to the Global Fund
- Determine annual allocations to the Global Fund (should all release assistance be funded from the global fund? If so then the minimal contribution should cover what they typically spend in each facility)
- Determine the value for the inmate of instituting forced savings program
- Develop a procedure with ACCD for the involvement of the IPPO for release assistance
- Develop criteria of what global funds can be used for: large facility projects (GED at Contracted Facilities); release assistance; advanced education options; birth certificates;
- Update the Inmate Welfare Account policy DOC 1.2.12 and all facility policies to reflect new processes.
 - Policy updates should include:
 - Process for requesting release assistance
 - Typical expenditures for all facilities (this will provide consistency)
 - Stipend information for the IWF Representatives as it is not covered by the current referenced policy
 - Determine if food sales are allowed under statute 53-1-109.
